Asian Tigers 45-hole challenge

Asian Tigers Mobility Indonesia was once again proud to host its 4th annual 45-Hole Golf Challenge on Friday, August 24, 2018. This unique tournament challenges participants to finish all 45 holes of the mighty Jagorawi Golf and Country Club in one day - and it must be done walking. Asian Tigers Mobility Indonesia hosts the annual event to raise

money and awareness for ASTI (Animal Sanctuary Trust Indonesia), a not-for-profit organisation which focusses on protection and rehabilitation of endangered animals in Indonesia, including the endangered Sumatran Tiger.

This year saw the best turn-out yet, with 58 enthusiastic players joining the tournament that can only

accommodate a maximum of 64 players in order to finish in one day. Money raised through the generosity of sponsors and players exceeded the \$4,000 mark and Asian Tigers is looking forward to even greater success next year.

Congratulations to the winners of 2018 of which 36 holes are counted, allowing players to throw away their worst 9 holes.

MODEL OF HMS HOOD ARRIVES SAFELY IN SCOTLAND

Dutch-based moving company Mondial Vogel Removals has recently moved a model of the battlecruiser *HMS Hood* from Holland to a new home in Glasgow, Scotland.

The scale model of the warship was part of an exhibition at the Polderhuis Museum in Middleburg, Holland where it had been displayed for the past ten years. However, the ship had to be moved to make room for another exhibition.

As the model is almost three metres long, it could not be moved using the elevator and had to be carried via the stairs: a great challenge for the movers.

The model ship is now on show at the Hood Association not far from where the original 262-metre-long ship was built by John Brown & Company between 1916 and 1918.

The *Hood* was sunk by the German battleship *Bismarck* during the battle of Denmark Strait in May 1941. Of the 1,419 men on board, only three survived.

Airbnb enters the relocation market

Airbnb has expanded its Airbnb for Work service to focus directly on individuals relocating for work. In a recent press release the company said that 700,000 companies have so far had employees book with Airbnb for Work.

The company said that around 20% of employees worldwide are eager to relocate yet around 40% of

international assignments are considered to be failures, with cultural adjustment being a key factor. Airbnb provides a temporary home for people that allows them to try out their new location in comfort and settle in more easily to their new surroundings.

Airbnb is also providing accommodation for off-site meetings and team-building events.
